

RAISING BILINGUAL CHILDREN

Mammaprada

5 THINGS TO CONSIDER

1

How fluent would you like your child to be?

2

How much support do you have from your partner and your families?

3

Can you and your partner speak each other's languages?

4

How much exposure does your child have to the minority language?

5

How long are you prepared to work on your child achieving the desired level of fluency?
